

THE POWER BEHIND YOUR POWER

National Lineworker Appreciation Day is April 11

National Lineworker Appreciation Day is celebrated on April 11 this year. This is a day to express our gratitude to the men who work so hard for us every day. They work all hours of the day, often in dangerous conditions away from their families, going above and beyond to restore power to our members. While we appreciate our lineworkers every day, we set aside the second Monday of every April to give them the recognition they deserve. Bayfield Electric invites our members to take a moment to thank a lineworker for all the work that they do. If you use electricity, a lineworker has had an impact on your life. When the lights go out, so do they.

In 2022 we celebrate these work anniversaries of our linemen:

Troy Seeger – 29 Years
Ken Koosmann – 26 Years
Keith Klobucher – 23 Years
Adam Waddle – 15 Years
Dustin Mckay – 10 Years
Keith Kavajecz – 8 Years
Elliot Powers – 8 Years
Blake Reijo – 5 Years
Matt Tarasewicz – 2 Years

ENERGY-SAVING TIPS FOR EARTH DAY

The greenest power is power not used!

- If you are the last to leave the room, remember to turn off the lights.
- Unplug any electronics that aren't in use.
- Hang out the laundry to dry outside in the sun.
- Take advantage of the sun's heat and open your curtains on sunny days.
- Take shorter showers and use low-flow shower heads.

CALL BEFORE YOU DIG

It's Easy! It's Free!

Planning a digging project in your yard or on your property? If you dig without knowing what is located below, you could damage an underground line.

Not only could you become seriously injured, but you will be responsible for the cost of repairs. To avoid hassles and fines, call 811, the Call Before You Dig number, at

least two business days prior to breaking ground. (811 locators do not mark privately owned underground lines or pipes, such as service to outbuildings, sprinkler systems or invisible fences.)

An uneventful digging project is the best kind to have.

Energy Efficiency Tip of the Month

When streaming content, use the smallest device that makes sense for the number of people watching. Avoid streaming on game consoles, which use 10 times more power than streaming through a tablet or laptop.

Streaming content with electronic equipment that has earned the ENERGY STAR® rating will use 25% to 30% less energy than standard equipment.
