

Congratulations!

Congratulations to the 2023 scholarship recipients! Each eligible student was awarded a \$1,000 from Bayfield Electric Cooperative.

Adeline Lund
Ashland High School

Mardea LaPointe
Bayfield High School

Morgan Hurula
Drummond High School

Collin Thier
Hurley High School

Cole Lahti
Northwestern High School

Matthew Knaack
South Shore High School

Ciarra Helwig
Washburn High School

HOW DO WE CONTACT YOU?

Help us help you by keeping your contact information up to date

Every now and then we may need to contact you whether it's because we have a billing question, we have to take your electrical service out of power for a maintenance reason, or we just simply have a question regarding your account. We have a handful of phone numbers on file that bounce back as disconnected, changed, or it's altogether the wrong person. We list your phone number that we have on file on the bottom

third of your electric bill. Please take a moment to verify that the number we have on file is still the best contact number to reach you at. If it is not the correct number, you can make the correction on the stub and mail it in with your monthly payment. Or you can always call the office at 715-372-4287 to notify us of a change. If you utilize SmartHub, you can also change your contact information through the app or desktop site.

The Center of Customer Engagement

You can manage your account right from your smart phone or tablet with SmartHub. Make payments, notify member service of account and service issues, check your usage and communicate directly all at the touch of a button. Download the FREE mobile or tablet app in the Apple App Store or Android Marketplace.

www.smarthubapp.com

Download today and manage your account anywhere!

PAY YOUR BILL ON SMARTHUB.

The easiest way to pay your bill is in the SmartHub App, although you can pay through SmartHub web, as well. Pay with debit/credit or E-check. It's fast, it's easy and the payment applies to your account immediately.

LOWER YOUR BILL RIGHT NOW!

See your daily electric use on SmartHub through the purple button on our website or through the SmartHub App. Why wait to see your bill and THEN make changes? See your daily use and make changes RIGHT AWAY to lower your next bill.

SIGN UP FOR PAPERLESS BILLING AND AUTO-PAY.

You can sign up for Paperless Billing and Auto-Pay on SmartHub.

Get a notification by text and/or email that your bill is available to view in SmartHub rather than get a paper bill in the mail.

If you would like to have your payment drafted from your checking/savings account or credit card every month - sign up for the Auto-Pay program on SmartHub.

GREEN *electricity* for EVERYONE

There are many ways to power a home, farm, or business through Evergreen. In addition to supporting renewable energy, members can choose which opportunity is best for their lifestyle. Evergreen Everyone, Evergreen Every Day, Evergreen Everywhere, or even Evergreen Everything are all options to select from. Join more than 40 members who have already signed up to purchase Evergreen—your energy choice for the future. The Evergreen program is your investment to a cleaner and greener world for only \$.65 per share, per month. To learn more, check out our website at www.bayfieldelectric.com/renewables.

COMMUNICATION IS KEY TO SUCCESSFUL CONSTRUCTION

Are you still thinking about building a new house this year? Or a little weekend getaway? Maybe you're just adding another grain dryer to your farm. Any way you look at it, there's still time, and communication is the key to a successful new service request.

The first step in getting power to your site is to call the office well in advance. We need a meeting with you out at the site to get a plan together and your cost estimate to you. This first meeting with a staking technician should be done once you know the site layout. We need to know where your building is going as well as the placement of the well and septic, driveway, and any potential future outbuildings if it's

a residential construction. If it's a farm or commercial construction, metering placement is necessary, as well as the whole site layout.

Once you know all of that, give Troy a call at our office at 715-372-4287 to schedule your meeting. He'll get all of the required information and set up a time for you, your electrician, or general contractor to meet with our staking technician. Our staking technician will work with you on a best route, get a tentative plan in place, and a cost estimate to you.

Once your estimate is paid in full, all necessary paperwork is handed in, and your meter socket is installed by a licensed electrician, we will get the staking technician back out there to get the project ready for installation.

Pro Tip: If you are building, take a look at our rebate page on our website. There's just about something for everyone. You can find rebates on heating, lighting, appliances, water heaters, and even for installing an electric vehicle charger.

IT'S COUNTY FAIR TIME!

Support your local youth, and have fun at this year's County Fairs!

Iron County
August 3–6, 2023

Bayfield County
August 10–13, 2023

Ashland County

Energy Efficiency Tip of the Month

Did you know ceiling fans can make a room feel 4 degrees cooler? To save energy through ceiling fan use, remember to raise your thermostat a few degrees while fans are turned on. Ceiling fans can help improve comfort year-round.

In the summer, operate ceiling fans in a counterclockwise direction. Reverse the direction to clockwise during winter months and set fans on a low speed so warm air can circulate from the ceiling to the lower levels of the room. Remember, ceiling fans cool people, not spaces. Be sure to turn them off when you leave the room.
